The right choice

1. THERMAL INKJET
FOR PRIMARY PACKAGING

Cleanest direct printing on any surface. Simple, compact, robust and economic coding. Prints lot numbers, serial numbers, dates, and small barcodes.

2. HIGH RESOLUTION INKJET
FOR SECONDARY PACKAGING

Direct printing on any porous or non-porous surfaces (UVLED Curing Systems). Texts, images, logos, symbols, and any 100% readable 1D/2D barcodes, GS1 standards.
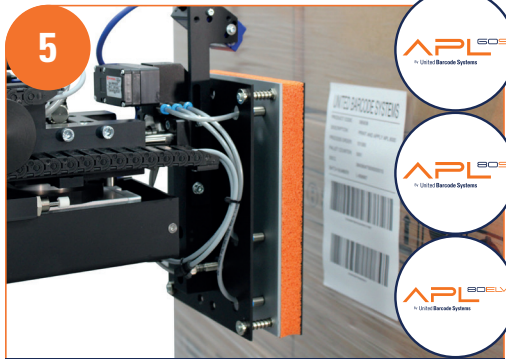

3. UVLED
CURING SYSTEMS

Designed and created by our engineers for instant curing of UVLED ink on any type of surface.

4. PRINT & APPLY
FOR SECONDARY PACKAGING

Automatic Print & Apply System, designed to meet the highest requirements on labeling production lines. Top, side, front, rear, corner.

5. PRINT & APPLY
FOR PALLETS

Automatic Pallet Print & Apply Systems for 1, 2 or 3 sides of the pallet in real time. Label stacked pallets or pallets with variable heights with the ELV solution.

6. INK
CONSUMABLES

Oil based and UV based ink that perfectly pair with our High-Resolution printers. Also, water, solvent, cartridges, labels, and ribbon are available.

7. SOFTWARE
LABELING PROCESS MANAGEMENT

Label data management for inkjet printers and print and apply systems network administration. Manage all your mailing and labeling from one screen.

8. SOFTWARE
LABEL DESIGN

An advanced editor to create labels and messages in an easy and intuitive way.
